Matt, can you check with George again? I talked to him yesterday afternoon about providing written answers instead of a verbal interview.

Hi Jennah,

After we spoke yesterday, you mentioned you were going to reach out to George Hull, to make sure we are all aware of the various requests related to ITC from the media and our R6 pending Congressional Committee request by the House Science, Space and Technology & Energy & Commerce Committee. Please let Matt and I know if the R6 Office of External Affairs agrees with Matt conducting the requested interview this week. Thanks

Hi James, not sure if you are aware of this, but I've been asked to be interviewed by a journalist regarding ITC and our inspection of the facility in 2016. Rebecca Connell asked me to reach out to Region 6 to coordinate, the journalist would like to conduct the interview this week. I'm fine with doing it myself **Ex. 5 Deliberative Process (DP)** (as was suggested as a possibility by my supervisor), but wanted to make sure you're aware and to get the ok to move ahead with the interview. It was already cleared by AED and George Hull (OECA's press contact). Let me know what you think, we can chat if you want.

-Matt

Hi Matt –

Rebecca has advised that you need to coordinate with Region 6 regarding a response since the inspection was done at the request of Region 6. **Ex. 5 Deliberative Process (DP)**
Ex. 5 Deliberative Process (DP) You would only respond to the NEIC inspection – you can't really speak to the Region or State oversight.

We can have a meeting to discuss further – if needed.

Rebecca –

Matt was contacted by a reporter and we referred the reporter to George Hull and Region 6 press office. Looks like they also want to talk to Dan Hoyt about a different inspection at the same facility. They included sample questions.

As you see below, Mary Greene and Greg Fried are OK with the interviews if they can listen in. Any issues with Matt participating in an interview? I have asked Matt to discuss with us internally before responding.

Matt,

The reporter is interested in interviewing you about the inspection report. He sent some sample questions (attached). He has also asked to interview Dan Hoyt about a separate inspection he conducted at the same facility. Mary Greene and Greg Fried indicated that they would be o.k. with the interviews proceeding if they were on background. The reporter has agreed to that condition. I was hoping to speak with about it and see if you are comfortable proceeding with an interview, when you have a minute. Thanks, George

Hi David,

Thank you for reaching out. Unfortunately I'm not authorized to speak to the public about our inspection and enforcement activities. I'll have to refer you to EPA's office of Media Relations. You can contact them by email at press@epa.gov. The OECA point of contact for press relations is Melissa Sullivan, sullivan.melissa@epa.gov or George Hull, Hull.george@epa.gov.

EPA Region 6 also has public affairs liaisons, who can be reached at r6press@epa.gov. I'm sorry I can't be of more assistance to your story, but I look forward to reading it when it is published.

Good afternoon Mr. Schneider,

I hope this message finds you well. My name is David Leffler and I'm a reporter with Public Health Watch — a nonprofit, nonpartisan news organization focused on threats to America's well-being.

I'm reaching out because I'm currently working on a story looking back at the 2019 fire at the Intercontinental Terminal Company's facility in Deer Park, Texas. Specifically, I'm hoping to better understand the facility's culture and history, including past violations and similar aspects of EPA and TCEQ oversight. I came across your 2016 inspection of

the facility (which has been very helpful) and am interested in learning more about your experience there.

I'm not sure in what capacity you can speak with me about this matter, but if at all possible, I'd love to tell you more about this project and how your past inspection ties in. Even if it's just on background, I'd appreciate any input and insight you can provide.

Thanks in advance for your time and consideration here, Mr. Schneider. Feel free to let me know if you have any questions or concerns that I can help address.

Best regards,
David Leffler
